

AMENDMENT TO THE CLAIMS

The listing of claims will replace all prior versions, and listings, of claims in the application.

Claim 1 (Cancelled)

Claim 2 (Previously Presented) A laminated substantially L-shaped packaging restraint, comprising:

a first layer of a compressible, resilient material, the first layer having a major surface defined as first surface of the first layer and an opposite major surface defined as second surface of the first layer;

a substantially L-shaped second layer of an abrasion-resistant material, the second layer having a major surface defined as first surface of the second layer and an opposite major surface defined as second surface of the second layer, the second surface of the second layer having an attachment member, and

the second surface of the first layer secured to selected surface portions of the first surface of the second layer to provide the laminated substantially L-shaped packing restraint.

Claim 3 (Cancelled)

Claim 4 (Currently Amended) A laminated substantially L-shaped packing ~~The restraint according to claim 2, comprising:~~

a first layer of a compressible, resilient material, the first layer having a major surface defined as first surface of the first layer and an opposite major surface defined as second surface of the first layer;

a second layer of a compressible, resilient material, the second layer having a major surface defined as first surface of the second layer and an opposite major surface defined as second surface of the second layer;

a substantially L-shaped layer of an abrasion-resistant material, the L-shaped layer having a major surface defined as first surface of the L-shaped layer and an opposite major surface defined as second surface of the L-shaped layer, wherein the L-shaped second-layer comprises a first leg and a
